

Class 10

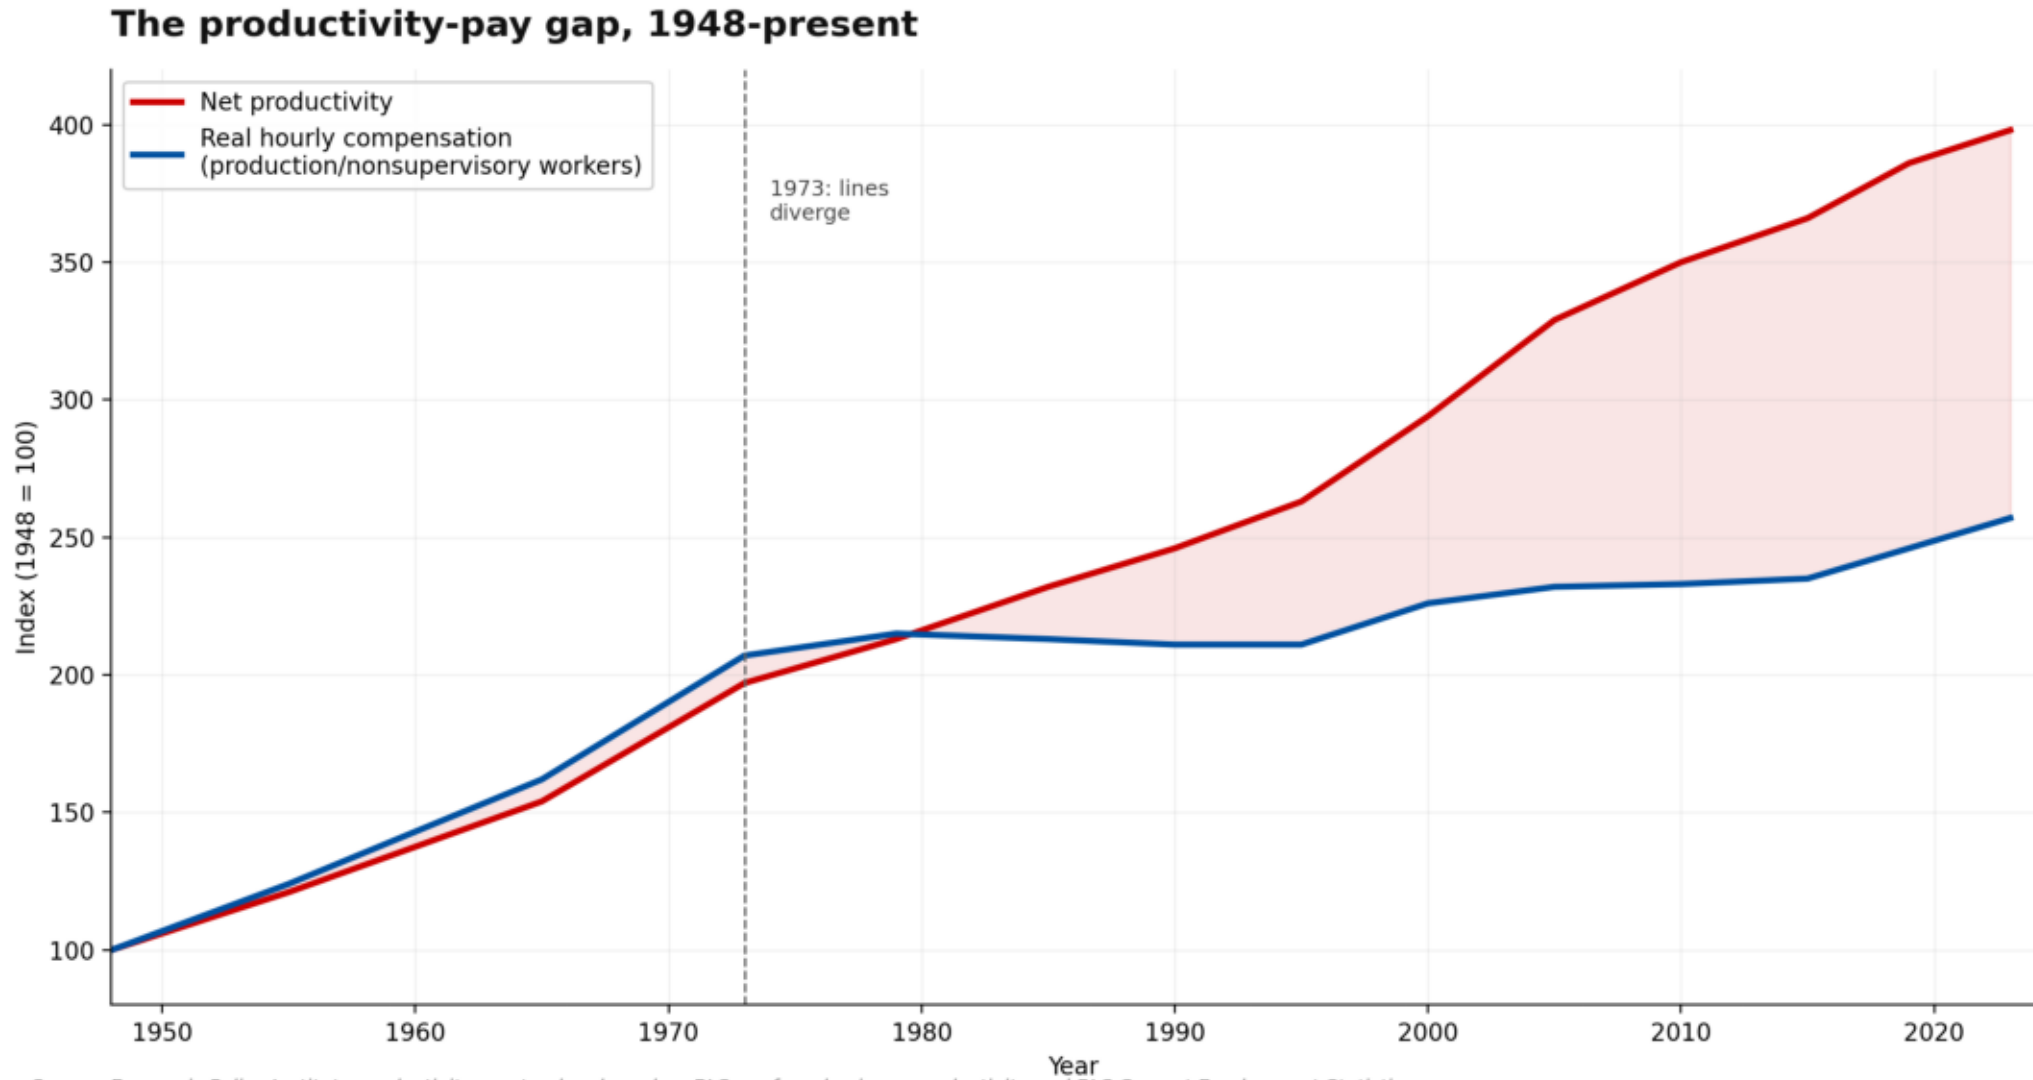

Productivity and Wages

Part II — Building the American Growth Machine

Productivity and real hourly compensation, 1947-present

The productivity-pay gap: a chart to read critically

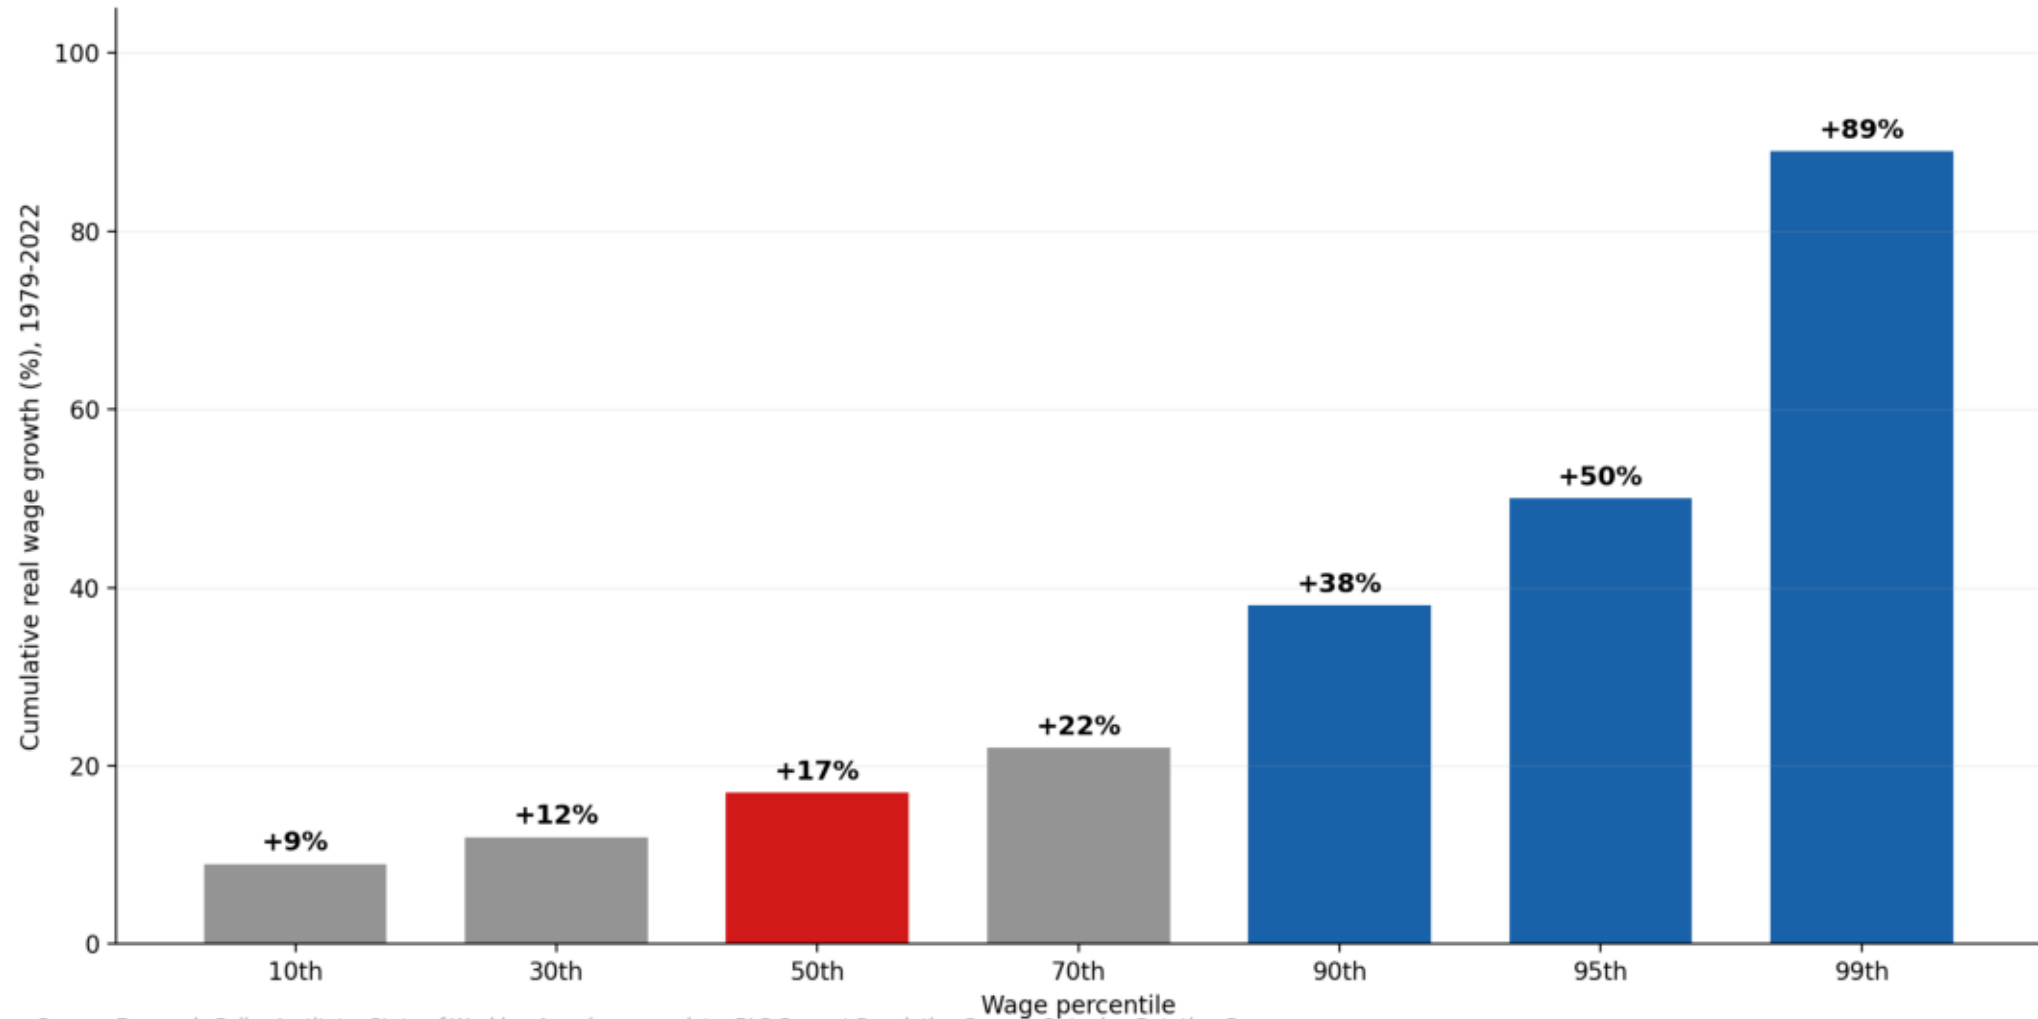

Source: Economic Policy Institute productivity-pay tracker, based on BLS nonfarm business productivity and BLS Current Employment Statistics.

Source: Economic Policy Institute. Used as a measurement clinic: wages vs. total compensation, average vs. median, output vs. consumer deflators.

Real wage growth by percentile

Most of the gains went to the top: real wage growth by percentile

Source: Economic Policy Institute, State of Working America wage data; BLS Current Population Survey, Outgoing Rotation Group.
